

Basic Search allows you to search for items by entering words. The system will search for the most suitable items based on the words you enter. The **Basic Search** option is available at the top of each of the pages.

Type the words into the search box.

As you type, a prediction list of words and phrases that match what you have typed will display. For example, when the word 'space' is entered, the following terms are suggested:

If one of the terms in the prediction list is more appropriate, click on the predicted term to search using that instead. Otherwise, click the  button to search for the term you typed.

The results screen will be displayed showing the items that match your search.

Click on the arrows to see the next or previous page of search results

Search term(s) used

Select list or tile view

The screenshot shows a search results page for the term 'space'. The search bar at the top contains 'space' and a search button. Below the search bar, there are navigation arrows and a dropdown menu showing '1-20 of 1276 results best matching space'. A 'Search again to filter these results' button is also present. On the right side, there are options for 'Sort by Relevance' and buttons for 'List' and 'Tile' views. A left sidebar contains a list of filters: Author, Branch, Collection, Corporate Author, GMD, Published Date, Publisher, Rating, Series, Subject, and Type. The main area displays a grid of book covers. Each cover has a green checkmark or a red X. A callout box points to a cover with a plus sign, stating 'Filter these results by using any of these terms. Click on the plus symbol to expand each term.' Another callout points to a cover, stating 'Click on book cover to show more details'. On the far right, there is a box for adding items to a resource list, with a note: 'Add items to your resource list by dragging them into this box. If you wish to request any of these resources please use the online request form on our website.' Below this is a shopping cart icon and a button labeled 'Add all to my resource list'.

Filter these results by using any of these terms. Click on the plus symbol to expand each term.

Click on book cover to show more details

From this screen you can:

- Filter the search results using terms such as author, publication date, item type etc.
- Change the order of results.
- View the results as a list instead of tiles.
- Drag items into a resource list **N.B. Dragging items your resource list does not constitute a reservation, please request items using our online request form or by phone.**

Clicking on a thumbnail image or the title of the book will show you more details about the book you have selected.
